

OUR **COMMUNITY.** YOUR **LEADERSHIP.** THEIR **FUTURE.**

A child's early years lay the foundation for their future success in school. You can ensure more kids in your Arizona community are ready for kindergarten by volunteering to serve on a First Things First regional partnership council.

In this critical role, you and other council members will make high-level decisions about funding early childhood programs and strategies that strengthen families and support the healthy development and learning of young children.

Every child should start kindergarten healthy and ready to succeed. You can make a difference. You can be a voice for young children in your Arizona community.
