

## AT-A-GLANCE: CURRENT REGIONAL INVESTMENTS

### Addressing Development Delays

The intent of this strategy is to ensure that all children have access to high-quality preventive and continuous health care, including physical, mental, oral and nutritional health. It provides emotional and developmental support to families of young children with special needs that do not otherwise qualify for IDEA Part B or Part C services in an effort to aid them with strategies that support their child's healthy development. Here are the First Things First regions funding this strategy.

### Family Support—Children with Special Needs
