Parenting

There's no one right way to raise a child, and you don't have to be perfect. These programs are here to help you learn effective ways to support your child's healthy development and learning.

Parenting Activities

Participate in family-friendly workshops, classes, story times and other events to have fun with your child, learn more about child development and early literacy, and meet other parents.

Parenting Education

Attend a series of group classes proven to increase your understanding of child development and improve your parenting skills.

Family Support – Children with Special Needs

Get individualized support and coaching to help you identify and address developmental concerns early, respond to challenging behaviors, and support your child's physical, social and emotional development.

Home Visiting Programs

Work 1-on-1 with a trained and caring parent educator, in the convenience of your own home, to build on the parenting skills you already have and nurture your child's health, development and learning.

Family Friend and Neighbor Caregivers

Many children spend parts of the day with non-parent caregivers in informal home settings. Learn how you can better support the health, development and learning of the young children in your care through health and safety practices, educational activities and understanding more about child development.

Child Health and Development

All children develop differently, but it helps to know if they're meeting typical milestones or could use extra assistance, and many medical and dental problems can be prevented.

Dental/Oral Health
Prevent tooth decay by having a professional check your child's teeth (or yours, if you're pregnant), protect your child's teeth with fluoride, and get a referral to a dentist if you need one.

Quality Child Care and Preschool
Quality early learning programs help young children learn, grow and thrive. More than 1,000 child care centers, homes and preschool programs in Arizona participate in Quality First to improve the quality of early learning for kids from birth to age 5. Many offer Quality First Scholarships to help low-income families afford quality early care and education.

Birth to Five Helpline
A free service available to all Arizona families with young children, (as well as parents-to-be), who have questions about their baby, toddler or preschooler. Ask experts about your child's feeding, sleep, behavior or any other concern. The Birth to Five Helpline is here to help.

First Smiles Yuma
